BUILDING OPERATIONS

SOUTH AUSTRALIA

DECEMBER QUARTER 1966

SCOPE This bulletin gives information about "new building" operations in South Australia; in addition to a summary for the period 1961-62 to December 1966 it shows details concerning houses and flats, other buildings, employment in the industry, and dwellings in local government areas. The information has been compiled from returns collected from all builders of new buildings.

All values are expressed in decimal currency (\$2 = £1).

DEFINITIONS New Building: Alterations and additions of \$10,000 and over to existing buildings are included, but minor additions, alterations, repairs and renovations, and all construction activity such as railways, bridges, earthworks, water storage, etc., are excluded.

Value: All values shown exclude the value of land and, except in Table 4, represent the value of buildings upon completion (see also "Completion"). Values shown in Table 4 represent the amount of work done on new buildings during the period and are not subject to the fluctuations from period to period noted in Table 3 in the values of "new buildings other than dwellings"; these fluctuations are partly the result of the unequal incidence of individual large contracts.

Commencement: A building is recorded as commenced when work on the foundation has begun.

Under Construction: Once commenced, even though work on it may have been temporarily suspended, a building is classified as "under construction" until its "completion".

Completion: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract or in the case of an owner-built house when the dwelling is either completed or occupied (whichever occurs first). However, the value in all cases is that of the building as a finished project as planned.

COMMENTS 2,097 houses were commenced and 2,466 were completed during the three months ended December 1966. Commencements were 473 less than in the September quarter 1966 and 170 less than in the December quarter 1965. Completions were 262 less than in the previous quarter and 150 less than in the December quarter 1965.

The number of flats commenced (300) was 45 less than in the preceding quarter but equalled the number commenced in the December quarter 1965. The total of 2,397 dwellings (houses and flats combined) commenced was the lowest since the March quarter 1962.

Persons recorded as employed on all jobs of builders of new buildings at 14th December totalled 13,362. This is 20 more than on 30th September 1966.

(a) Mainly of weatherboard construction.

(b) Brick and stone veneer not separately recorded, included with brick, concrete and stone.

OWNER-BUILT HOUSES

Of the 9,270 houses commenced during 1966, 534 (value \$4,571,000) were owner-built, i.e. being erected by the owner or under the owner's direction by sub-contract or day labour but without the services of a contractor responsible for the whole job. During December quarter 1966 there were 155 (\$1,329,000) owner-built houses commenced and 152 (\$1,318,000) completed.

Plumbers	1,171	1,304	1,327	1,278	1,325	1,238	1,196	1,172
Builders' labourers	1,910	1,964	2,119	2,014	2,038	1,866	1,859	1,819
Other	2,475	2,583	2,961	2,849	2,542	2,629	2,511	2,485
Total	13,442	14,133	15,273	14,584	14,086	13,506	13,342	13,362

Note: Building employment covers all contractors and sub-contractors and employees of contractors, sub-contractors, and Government instrumentalities, who on the day specified were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.
